

CENTRAL TABLE EXTENSION

Model update

The models with a serial number from 122139 to 127710 can be updated to the newer version. The extension improves the material flow to the cutterhead. This is very advantageous when driving up an outer row or when working one-sided.

Installation time:

approx. 15 min.

Package contents:

- All necessary elements for the retrofit
- Installation instructions

For the correct usage please check the operating manual
