

FLAT ANGLE KIT

The assembly allows a flatter attachment of the header. This is recommended for forage harvesters with large wheels.

Benefits:

- Improved crop transport
- Reduces crop losses

Header type	Part number
345plus, 360plus, 375plus (with multispeed)	133018
345plus, 360plus, 375plus (without Multispeed starting with SN 126776)	2 x 113239, 2 x 109971

Installation time:

approx. 30 min.

Package contents:

- All necessary elements for the retrofit
- Installation instructions

For the correct usage please check the operating manual
