

# RETROFIT KIT PENDULUM BEATER

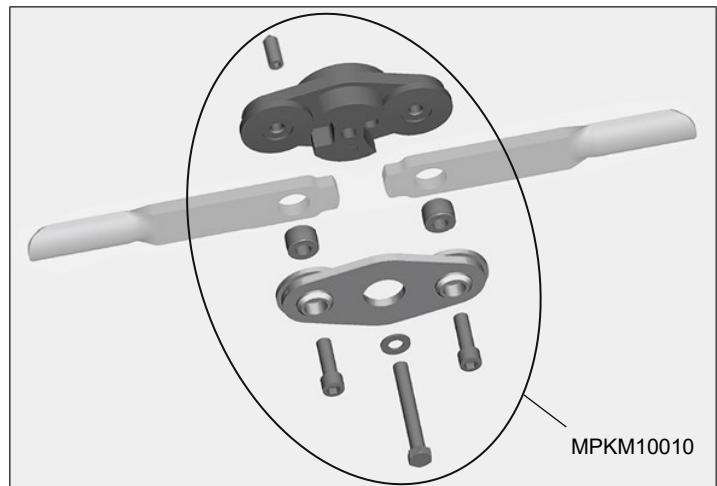

**Model year change 2022**

Upgrade your StalkBuster from model year 2019-2021 to the new design with pendulum beater!

## Benefits:

- The pendulum beaters can move backwards when they come into contact with foreign objects. This reduces the load on the various components
- Reduced operating costs! The replacement of wearing parts is therefore limited to the beaters
- The lifespan of the beaters is comparable to the previous version
- The work result is still excellent!

## Required number of bundles per machine type:

Header type	Part number	Quantity
460plus Stalkbuster	MPKM10010	1
	LCA128130	8
